

Kelly F. Viau, D.D.S., P.A.

Five Reasons You Hate Going to the Dentist but will LOVE our office!!

- 1) **The Cost!** We are now in-network providers for Blue Cross/Blue Shield. Less out of pocket expenses for you!
- 2) **The Sounds!** We use quieter and smoother handpieces that are much more comfortable than the ones you remember from your childhood.
- 3) **The Needles!** Dr. Viau uses a computer-controlled dental injection. The flow rate of the local anesthetic is controlled by a computer, guaranteed to be slow and steady and much more comfortable than traditional injection techniques.
- 4) **The Smell and Atmosphere!** Our office is located in the heart of historic downtown Apex. We have created a warm, inviting atmosphere where you can relax before and after your appointment.
- 5) **Poor Service!** We are committed to providing you with top-notch customer service. From the moment you walk in, you will know that you are part of something special.
